

MURALI NATARAJAN

GRC Analyst • Cybersecurity Analyst • Security Project Manager

Chennai, India | +91-8148963898 | muralidme007@gmail.com | linkedin.com/in/murali-natarajan | github.com/muralidme007-code

PROFESSIONAL SUMMARY

Results-driven cybersecurity professional with 15+ years of international experience in risk management, quality assurance, and project delivery across Singapore, UAE, Oman, Kuwait, and India. Google Cybersecurity Certified with a hands-on home lab (Kali Linux, Wazuh SIEM, Metasploitable2) and a documented portfolio of GRC, incident response, and vulnerability assessment projects aligned to NIST CSF 2.0, ISO 27001:2022, and MITRE ATT&CK. Brings a rare combination of senior operational risk leadership and applied technical security skills. Actively targeting GRC Analyst and Cybersecurity Analyst roles, open to relocation across UAE, Qatar, KSA, and Singapore.

CORE COMPETENCIES

GRC & Risk Management • NIST CSF 2.0 / ISO 27001:2022 • Vulnerability Assessment • Incident Response (NIST 800-61) SIEM Operations (Wazuh) • MITRE ATT&CK Framework • CVSSv3.1 Risk Scoring • Compliance Auditing
Linux Administration • Python & Bash Scripting • Network Security (Wireshark) • Cloud Security Fundamentals
Security Policy Development • Stakeholder & Executive Reporting • Project Management (PMP Foundation) • Lean Six Sigma Green Belt

KEY SKILLS

GRC & Risk Management — Risk registers, control frameworks, NIST CSF 2.0, ISO 27001:2022 Annex A, CIS Controls v8, compliance gap analysis

Security Operations — Wazuh SIEM alerting and log analysis, incident response lifecycle (NIST SP 800-61), MITRE ATT&CK mapping

Vulnerability Management — Nmap, OpenVAS/GVM, Nikto scanning; CVSSv3.1 scoring; OWASP Top 10 and CIS Controls mapping

Technical Foundations — Kali Linux, Ubuntu Server administration, Python automation, Bash scripting, Wireshark packet analysis, AWS fundamentals

CYBERSECURITY PORTFOLIO PROJECTS

Cybersecurity Risk Register — *NIST CSF 2.0 / ISO 27001:2022 aligned*

- 12-risk enterprise register with Likelihood × Impact scoring, treatment plans, and control mapping covering phishing, ransomware, insider threat, and cloud misconfiguration.

Security Incident Response Report — *Wazuh SIEM / NIST 800-61 / MITRE ATT&CK*

- Documented a real Wazuh-detected SSH brute force attack (2,412 attempts); full IR lifecycle with containment achieved in 18 minutes; 7 MITRE ATT&CK techniques mapped.

Vulnerability Assessment Report — *Nmap / OpenVAS / Nikto / CVSSv3.1*

- Assessed 5-host lab network; identified 14 vulnerabilities including 3 CRITICAL CVEs (CVSS 9.8–10.0); produced phased remediation roadmap mapped to CIS Controls v8 and OWASP Top 10.

AI Security Triage Agent & Job Alert Automation — *Python / Gemini API / Cron*

- Built Python-based automation tools for security alert triage and job search — demonstrating scripting and Linux administration capability.

PROFESSIONAL EXPERIENCE

Business Development & Sales Partner

Feb 2025 – Present

Atlantic Service — Cuddalore, Tamil Nadu, India

- Managed full B2B sales cycle for marine diesel engines, propulsion systems, and heavy construction equipment across Southern India, maintaining quality and delivery standards for key clients.
- Coordinated technical specifications and procurement with global OEMs (Cummins, Weichai, Caterpillar); managed vendor risk, supply chain documentation, and post-sale technical support.

Project Manager

Dec 2020 – Feb 2025

Weng Soon Pte Ltd — Singapore

Key Projects: Microsoft Data Center SIN06 (Phase 1 & 2), Siltronic C18 FAB Phase 2, AMAT @ TIC

- Led end-to-end delivery of high-value, mission-critical projects; developed project plans, WBS, risk registers, and quality control protocols — directly mirroring GRC risk management methodology.
- Developed and enforced Method of Statements (MOS), Project Quality Plans (PQP), and compliance documentation packages for regulatory and client audit submissions.
- Implemented QA processes that measurably reduced non-conformance rates through root cause analysis and corrective action programmes — a direct analogue to cybersecurity risk treatment.
- Managed multi-disciplinary subcontractor teams of 15–25 across international sites; ensured full HSE and regulatory compliance throughout project lifecycles.

QA/QC Manager

Dec 2019 – Dec 2020

Weng Soon Pte Ltd — Singapore

Key Projects: Siltronic C18 Phase 1 & 2, Microsoft Data Center SIN06

- Established and enforced ISO-compliant Quality Management Systems — experience directly transferable to ISO 27001 ISMS implementation.
- Conducted comprehensive incoming, in-process, and final inspections; coordinated DT/NDT testing programmes across multiple workstreams.
- Managed full NCR processes and quality documentation (ITPs, MAS, WQR, Final Dossiers); supported internal and external audits with zero critical NCRs at Siltronic C18 turnover.

QA/QC Engineer

Mar 2019 – Nov 2019

Kong Hwee Iron Works & Construction Pte Ltd — Singapore

Key Projects: Mandai Zoo Rejuvenation, Shimizu-CPF, Shimizu-AAG, POMO Mall

- Executed quality control, inspection records, equipment calibration, and traceability documentation; compiled Final Quality Dossiers for project turnover.

Logistics & QC Documentation Engineer

Feb 2015 – Feb 2017

Composite Pipe Industries LLC — Muscat, Oman

Key Projects: Petrofac-Sharjah (UAE), ORPIC-Oman, SAIPEM-Kuwait

- Coordinated quality documentation and logistics for major Oil & Gas projects across UAE, Oman, and Kuwait; streamlined material tracking systems, reducing documentation errors across multi-country portfolios.

Early Career — Quality & Materials Management

2009 – 2014

Kuwait National Petroleum Company (Kuwait) • Hyundai Wia India • Om Shakthi Engineering • Hinduja Foundries Limited

- Foundational roles in production QC, material management, and manufacturing process optimisation across Oil & Gas and heavy manufacturing sectors.

CERTIFICATIONS & PROFESSIONAL TRAINING

- Google Cybersecurity Certificate — Coursera / Google (2025)
- Lean Six Sigma Green Belt Specialization (2026)
- Project Management Foundation – Quality
- WSQ: Supervise Construction Work for Workplace Safety & Health (WSH)
- ISC2 Certified in Cybersecurity (CC) — In Progress
- CompTIA Security+ (SY0-701) — In Progress

EDUCATION

Diploma in Mechanical Engineering

2008

Krishnasamy Memorial Polytechnic College — Cuddalore, Tamil Nadu, India

CYBERSECURITY HOME LAB

VirtualBox hypervisor running Kali Linux 2026.1, Ubuntu Server 22.04, Metasploitable2, and Wazuh Manager. Tools: Nmap, OpenVAS/GVM, Nikto, Wireshark, Python, Bash, msmtmp, Cron. All project outputs documented and published to GitHub.
